TEEM WITH INSULT TO WILSON

All Evidence Will Be Furnished to State Department, and Government Can Lay Hold of All Neutrality Disturbers.

Copies of the correspondence have been turned over to the American embassy for transmission to the state dpartment

One entry shows that Capt. von Papen gave \$700 to Werner Horn, who was arrested in connection with blowing up a Canadian Pacific railway bridge at St. Croix, Me. The day before this check was issued the German embassy paid \$2,000 into Capt. von Papen's account.

In addition to the financial documents, the letters furnish a volume in themselves. They teem with insult to President Wilson, and even contain threats of the iron determination on the part of Germany to wreak vengeance upon the United States.

Sent \$500 to Seattle. When further details become known they will enable the United States to lay hands upon nearly all the German agents who have been in the pay of Von Papen since the outbreak of the German propaganda in the United States.

Among the papers taken from Von Papen is a letter from the German consul at New Orleans condoling with him on his recall from Washington, and criticising severely the attitude of the American government.

In January, 1915, Capt. von Papen gave a check payable to Amsick & Co. New York, but with the name of E. Kuepferle in brackets on the stub. This is believed to have reference to the man named Kuepferle who, after being arrested in England on a charge of espionage, committed suicide, leaving a written confession in his cell. As an example to the size of the

captain's financial operations, his bank book shows that in January of 1915 he received approximately \$6, 400 and paid out \$5,000.

"The state of things produced is in effect a blockade adapted to the conditions of modern war and commerce, the only difference in the operations being that the goods seized are not necessarily confiscated."
